

BC. MIROSLAV TVRDOŇ

SUMMARY

Driven Informatics student with hands-on experience in full-stack development and AI. Proficient in building production-ready web applications using FastAPI and React, with a focus on scalable backend systems and dynamic frontend interfaces. Experienced in machine learning and large language models, integrating advanced technologies into practical applications. Eager to contribute to innovative teams and further develop skills in software engineering.

EXPERIENCE

Software Engineer, 05/2026 - Current Siemens Healthineers - Košice

- Developed and implemented new software applications, enhancing company productivity and client satisfaction.
- Collaborated with cross-functional teams to identify system requirements, improving software functionality and user experience.
- Started role focused on software and data engineering workflows, developing domain knowledge with modern data platforms like Click, Snowflake, and Databricks.
- Monitored system performance post-deployment, resolving issues promptly to sustain operational efficiency.

Referee, 07/2022 - Current Slovak ice hockey association - Košice, Slovakia

- Cultivated in-depth knowledge of hockey regulations, enhancing decision-making during games.
- Supported head referees in maintaining game flow and enforcing rules, positively impacting match experience.
- Served as linesman for Hockey Slovakia, ensuring fair play and clear communication with players.

Chatbot Developer, 06/2025 - 04/2026 Erste Digital - Košice, Slovakia

- Designed and developed advanced chatbot, improving user interaction and engagement metrics.
- Implemented new features, enhancing chatbot performance, scalability, and security measures.
- Collaborated on code reviews, promoting best practices and elevating overall code quality.

IT assistant, Asset management, Security, 11/2023 - 03/2026 U. S. Steel Košice - Košice, Slovakia

- Streamlined the setup process, reducing deployment time by 20%.
- Delivered IT support by configuring and deploying new PCs for employees, ensuring seamless integration into workflows.
- Prepared and packaged hardware for staff and customer use, facilitating efficient operations.

SKILLS

- Python programming
- Backend development
- Redis, PostgreSQL
- Docker containerization
- Microservices architecture
- AI and machine learning
- Scikit-learn expertise
- Langchain tools
- Model deployment strategies
- Databricks utilization
- DevOps and infrastructure management
- UI development
- TypeScript proficiency
- Collaboration tools

- Collaborated with cross-functional teams to improve user experience and streamline support processes.
-

TRAININGS & CERTIFICATIONS

- Unix Operating Systems — command-line usage, process management, memory management, and file system fundamentals
 - Software Development Technologies — Git, version control workflows, collaborative development, and basic CI/CD principles
 - EF SET English Certificate — 78/100, C2 Proficient
-

EDUCATION

Bachelor of Science, Electrical Engineering and Computer Science, 2026
Technical University of Košice - Košice

High School, English class, 2021
Gymnasium Poštová 9 - Košice

LANGUAGES

Slovak:

C2

Proficient

English:

B2

Upper Intermediate

German:

A2

Elementary

HOBBIES AND INTERESTS

- Ice hockey refereeing, skiing, cycling, football, reading, and music
- Interest in AI, modern web technologies, and software engineering
- Continuous learning through programming, technical projects, and exploring new development tools
